# ***Titãs ! Live in Concert !***

***Titãs is the top selling Brazilian rock band, with 18 releases over a 22 years career.***

The first Brazilian band to win the coveted MTV video awards (won it twice for 'Best Video'), Titãs was also the first Brazilian band to perform at the Montreaux Festival, the first to go Platinum with a MTV acoustic album release, and the only band besides the Rolling Stones to perform on the much reported 'largest concert on Earth', for 1.5 million people in Rio, on Feb. 2006.

Titãs' 'Cabeça Dinossauro' album (1986, WEA) is considered the most influential rock album ever released in Brazil.

Brazilians and Brazilian music fans in the Bay Area are electrified to see these rock n' roll Gods coming to play in San Francisco. You can't miss this exclusive performance by world-class Brazilian rockers. Titãs comes to San Francisco in its full current line-up, including virtuoso guitarists Tony Bellotto and Paulo Miklos.

Sponsored by TAM Brazilian Airlines, MangaRosa Restaurant, Tucanos Travel, InStyle Designs, Sambazon, and Giant Reef Limo.

Titãs 2006 MTV Live US Tour includes San Francisco, Los Angeles, Boston and Pompano Beach.
